Amazon Verified Purchase (What's this?)

This review is from: **Genstrip Blood Glucose 50x2 Test Strips for Use with Onetouch Ultra (Health and Beauty)**

I really, really wanted to like these. I liked the price and I liked the idea of being able to get a 'generically' priced strip for my One-Touch Ultra mini meter.

Unfortunately, they didn't work with my meter.

I saw on the box - and I wish this was mentioned prominently in the item description - that these are not intended to be used with meters purchased after 2010. As it happens, I have a second One-Touch that is older than that. I tried these on that meter too. Still no joy.

Unfortunately again, and this is NOT the manufacturer's fault, since I tend to order these things well before I need them the 30 days had passed before I discovered I wasn't going to be able to use the strips so returning them isn't an option.

I'm not going to tell you not to buy these. They might work for you. But I would advise that you order the minimum quantity the first time you get them and check them IMMEDIATELY to see if they'll work in your meter.

★★★★★ **Readings like brand name strips on old and new Ultra mini,**  
September 18, 2013

Amazon Verified Purchase (What's this?)

This review is from: **Genstrip Blood Glucose 50x2 Test Strips for Use with Onetouch Ultra (Health and Beauty)**

I tested these strips against brand new Ultra strips in two mini meters a pre-2010 ultra mini and brand new mini meter. The results were very close. All that is different is that you have to match the code on the Genstrip vial with the code on the meter. Use the up and down arrows to change the meter code right after you insert the strip.

The blood sucks up a bit slower but the meter works normally.

A great alternative to predatory brand name strip prices.
